* Please note that the images are as close to the actual shades as we can get them, but as with all reproductions of images on computers, they are not exact replicas. Just as all types of thread, irrespective of their material, will look slightly different in real light and artificial light, so each computer's screen will show colours with its own bias towards a particular hue. Similarly, different printers may give slightly different results.

Orders can be placed by phone, fax, e-mail or through our site - whichever you prefer.
